

ZANI SIZANI

BACHELOR OF ARCHITECTURAL STUDIES GRADUATE

MULTIDISCIPLINARY DESIGNER AND ARTIST

I am a multidisciplinary designer with more than 6 years of professional experience in visual and digital design. I chose to study architecture as an extension of my artistic and social desire to understand the fundamental elements of community, space and art and how they all come together. Practicing architecture, design, art and music help cultivate a deeper artistic persona and holistic style. I consider myself to be a creative and strategic problem solver with a keen eye for detail.

EXPERIENCE

FREELANCE DIGITAL DESIGNER & ARTIST

Medimed Medical aid video and voice over, art commissions and small scale projects.
